## OUTRAGE BY VASOUEZ

Seven Shots Fired at a Steamer Flying the Stars and Stri pes.

The President of Honduras Demanded the Surrender of a Passenger and the American Captain Refused.

MINISTER BAKER ABOARD

Secretary Gresham at Once Notified by Our Representative.

The Matter Considered at a Cabinet Meeting-Possible Fight Between Brazilians Off Sandy Hook.

NEW YORK, Nov. 7 .- The Herald's Lin ertad dispatch says: Honduras fired on the American flag Monday morning. By the alleged orders of President Vasquez and by the command of the commissioner of the port of Amapala seven cannon shots were fired after the Pacific mail steamer Costa Rica, flying the stars and stripes, as she steamed away, because she refused to surrender one of her passengers to the Honduras government. United States minister Baker was on board the Costa Rica at the time. The passenger about whom the trouble arose is Policarpo Bonilla, who recently led the revolution in Honduras, but was defeated by General Vasquez. He then fled to Nicaragua, and with three hundred of his adherents joined the army of President Sacasa, who was engaged in an attempt to quell the revolution. Bonilla had decided to leave Nicaragua in order to relieve the government from all responsibility of harboring him. He, therefore, sailed from Coronto for Guatemala on Nov. 4 on the Costa Rica. American Minister Baker and more than one hundred others were his fellowpassengers. They arrived on Monday at Amapala, a port of entry of Honduras on the Pacific coast, and in the afternoon Commander of the Port Villila demanded that Captain Dow should surrender Bonilla. When this request was refused a threat was made to sink the ship, and it was asserted that President Vasquez had given strict orders to that effect. An official protest against the refusal to surrender Bonilia was presented to the captain at 6 o'clock, and clearance papers were only issued to the ship after nightfall, when it was too dark to leave the harbor with

A government officer came on board at 3:20 o'clock the next morning, saying that new orders had been received from the President insisting on the delivery of Bonilia or the bombardment of the ship. Capt. Dow replied that the commander of the port would receive his answer in half an hour, but before that time had expired he steamed away. Seven shots were fired after the Costa Rica, although she flew the American flag. None of the shots struck her, but it is feared the steamship City of Panama, of the same line, which was lying in the port, may have been injured, because the firing continued for some time

after the Costa Rica was out of range. The Congress of Honduras has conferred upon President Vasquez full power to make war upon Nicaragua\_whenever a revolution or an invasion of revolutionists from that republic occurs.

The Story Confirmed.

WASHINGTON, Nov. 7 .- Secretary Gresham this morning received a dispatch from United States Minister Baker, who was on board the steamer Costa Rica at Amapala, Honduras, when it was fired upon by the authorities of that place because she refused to surrender one of the passengers to the Honduras government. The Costa Rica was flying the American flag at the time, and Minister Baker's dispatch fully confirms the press reports of the affair.

The Secretary of State was at the Cabinet meeting when the dispatch from Minister Baker arrived, and it was taken over to him there. The prolonged session of the Cabinet up to 2 o'clock gave time for the consideration of the subject, and it was probably discussed. Captain Dow, in command of the Costa Rica, is the same captain who harbored Barrundia several years ago, who was killed on his ship while the attempt was being made to forcibly remove him by the government in whose waters the ship lay. It has been established that a political refugee, who is a passenger, as Bonilla was, cannot be taken from the ship which he is on. The chance presence of the United States minister on the vessel in this case is not considered to make any difference in the diplomatic aspects of the case. Nothing could be learned at the department of what reply was sent to Minister Baker or what steps it is proposed to take in the matter. It would ordinarily be expected, under the circumstances, that an energetic protest would be lodged with the Honduras government. The incident was discussed in the Navy Department. The Alliance sailed yesterday from San Jose to Acajutla, in San Salvador. Whether this movement is occasioned by the incident was not stated at the department.

#### MAY BE RAMMED. Report that Mello Will Try to Sink El Cid Off Sandy Hook.

Gotham May See a Naval Battle. NEW YORK, Nov. 7 .- The World has the following: "There may be a fine marine battle just outside of Sandy Hook within the next ten days. It is declared that Admiral Mello is negotiating for the purchase of two large ocean-going tugs here, to be used as rams for punching holes in El Cid as soon as she shall turn the Hook to leave American waters."

Ridiculed by Mendonen. WASHINGTON, Nov. 7 .- Sanor Mendonca, the Brazilian minister to this country. is inclined to ridicule the idea of attempting to ram the steamers purchased by his government, outside New York harbor, with tugs, and sink them. He says he does not believe Admiral Mello has agents in New York to purchase tugs for such a purpose, He also expresses the conviction that Chas. R. Flint & Co. violate no neutrality laws in employing men to go to Brazil, even if they do enlist in the cause of war after they

HAYTI'S LATEST UPRISING.

How Dietator Hippolyte Quelled a One-Man "Insurrection."

NEW YORK, Nov. 7 .- Albert Denisse, a passenger on the steamer Orange Nassau, which serived yesterday from West Indian ports, brings news of the last "uprising" in the black republic. According to this story some discruntled natives were in correspondence with Legitime's adherents in Jamaica. One of the latter, an Englishman, concluded that it might be well to see just | yards of the steamship landing. The sol-

how things were going in Hippolyte's domain, so he crossed over to Port-au-Prince. He engaged in business and proceeded to learn how the dusky ruler did things behind the scenes. He learned some very fine secrets about the administration, when a government agent was arrested. He was allowed his life on the promise that he would quit the island at once. He did so, and that was the end of the last "uprising." Hippolyte took the opportunity, how-ever, to make a speech at the palace the following Sunday, and announced his intention of doing as he pleased, even if the island of Hayti was bathed in blood. His speech had a remarkable effect on the populace, and since then there has not been a single uprising. That was a month ago.

#### A DO-NOTHING POLICY

Hawaiians Will Get Neither Annexation Nor a Protectorate.

President Cleveland Will Try to Carry Out a Neutral Policy, with Protection When Necessary.

WASHINGTON, Nov. 7 .- A rumor has been in circulation that the instructions to Minister Willis recently sent to Hawaii included authority to restore Queen Liliuoka; lani to the throne, and that Willis had already taken steps in that direction. These rumors probably grew out of the fact that the Cabinet held a very lengthy session today and it was understood that the Hawallan question was the subject under discussion. This session, however, could have no reference to the instructions already given Minister Willis, but concerned the recommendations which the President would make to Congress on the subject. In | students at the university, were arrested the nature of things the Minister could not restore the Queen. He can disavow all acts of Minister Stevens, the landing of the marines and the support which this government gave the provisional government, but nothing more. The restoration of the Queen, it is understood, is a matter that this government would leave to the people of the islands, and any form of government the people might adopt by a vote of those now authorized to use the ballot on the islands. The difficulties which a policy of favoritism for one side or the other would incur are well understood here. A policy of neutrality with such protection as was necessary to all parties seems to be the aim of the administration, and as this would include the supporters of the Queen, as well as those of the provisional government, it may be construed as friendliness to her and be regarded by the opponents of monarchy as an effort toward restoration.

High officials in the administration said to-night that there was absolutely no authority for the statement that Minister Willis had been instructed to restore the Queen. Secretary Gresham, when approached on the subject, said that astructions to ministers could not be discussed It is understood that Mr. Blount, late special commissioner to Hawaii, has been sent for, and will be here in a few days in consultation with the State Department. While Mr. Blount was still in Hawaii he published a statement from Secretary Gresham that the United States had no further in terest in the islands than any other power. This was taken in the islands as a notification that should an effort be made to restore the Queen the United States would not interfere.

A gentleman long resident in the islands

says that people there have come to under-

stand that it is the purpose of this admin

istration to go back over all the steps taken by the last administration and undo all that was done by Minister Stevens, whose acts have been repudated by the present administration. Residents in Hawali are not prepared to believe that this government will take steps to restore the Queen. It is said that even if the United States marines were to land with the purpose of attempting it they would be forcibly resisted It is not believed that the natives would take any steps to restore the Queen without being led by white men. It is alleged that the British residents in the islands are the only persons that would so lead the natives. It is not denied that should the United States refuse all overtures to annexation or a protectorate the inclination of Hawaii would be to look to Great Britain, were it not for the existence of a convention between Great Britain and France made in 1843, mutually pledging themselves not to annex any portion of the islands or in any way to assume a protectorate over them. The policy of the British residents is, therefore, to set up a government strongly favorable to themselves and antagonistic to the United States. The Canadian Pacific railroad runs a line of steamers to Australia via the islands. These steamers carry freight to points in the United States cheaper than the rate direct over roads in the United States via San Francisco. The British have large property interests in the islands, and the British government always aims to secure political control where its citizens have commercial interests. The gentleman mentioned also asserts that were an effort made to restore the Queen the senti-ment in the islands would hold the United States government morally responsible for the resulting bloodshed. The existing government is determined, he says, to main tain itself until it is demonstrated that no assistance is to be looked for from this government. When that is shown there are no grounds for looking to Great Britain or France for the reason stated above. Germany would be the next resource friends of the present government in Hawaii, this gentleman considers, have given up all idea of any measure of annexation or protectorate, and feel that Secretary Gresham has given sufficient expression to this determination to warrant the cessation of all attempts at negotiation looking to that end. The existing Hawaiian government has

been recognized by all civilized governments, including the United States, and is prepared to take what further steps are night by a reporter as to the telegram necessary to preserve the welfare of the

MADRID, Nov. 7 .- Dispatches received from Santander to-day say that the buildings ruined and rendered unsafe by the recent explosion are being blown up, and that the authorities are feeding and sheltering the destitute and doing everything possible to relieve the distress. The Marquis Comillas arrived at Santander on a fast train to-day and lavishly assisted in the work of relief. The bodies of the victims of the disaster are still being recovered from the sea. Divers who were sent down to examine the hull of the wrecked steamer, report that there are still 200 cases of dynamite in the hold. The first place selected was the fair grounds and floral hall the spot. It was all arranged for the mill to take place Saturday night, but the officers learned of the affair and the mill was postponed until Monday night. They then selected the Fiscus farm, three miles south of this city. Sheriff Meek also learned of this, and with several deputies put in his appearance and found Mose Goodwin, Brum Turner and Al Biegel with a lantern at the barn. They looked very much surprised at the sudden appearance of the officers and declared they were coon hunting, but it was noticed they had no dog. The barn floor was swept off and the barn put in proper order for the ring. The parties who were to give the entertain-ment became frightened and fled for Rip-ley county to fight to a finish over the county line. They got separated on the way and were unable to find each other. About daylight all the sports returned to this city, and as Moore and Connelly were boarding an early morning train for Cin-cinnati Sheriff Meek arrested them and placed them in jail. Judge Ewing fixed the bond at \$1,000 each to-day, but they were not able to furnish ball. Other arrests are to follow.

SHERIFF RINGO'S MISTAKE.

Meddling with Prisoners for Political Ends Will Be His Downfall.

Special to the Indianapolis Journal. BRAZIL, Ind., Nov. 7.-A sensation was created in court yesterday by attorney Albert Payne rising at the opening of the court and announcing to Judge McGregor that Sheriff Ringo had visited the prisoners while in jail and insisted on them employing William A. Knight, a prominent young attorney of this city and a leading Democratic politician. The sheriff was quoted as saying that "Knight stood in with the Judge and could have much influence," or words to that effect. After the ringing voice of lawyer Payne had ceased reverberating throughout the building death-like stlence prevailed, which was broken by the Judge's keen voice as he ordered the sheriff to come forward and explain. The portly officer's head was bent in humiliation, and his massive body seemed to twitch and quiver as he stood before the court. He said he had not told the prisoners that they would receive more clemency at the hands of the Judge if they employed Mr. Knight, but that he had interceded in Knight's behalf. The Judge exclaimed somewhat fiercely that he had no favorites or pets among the attorneys. This is generally conceded to be true, notwithstanding the sheriff, it is said, talks differently, From his argument it was hinted that the court might be part of a Democratic machine, controlled by members of that faith, and that Republican attorneys were given the cold shoulder. As a murder trial was to come up for hearing the court room was crowded to suffocation, and the condemnation of the sheriff was general. The charge has created a stir. Some claim that the sheriff is catering to a certain class in hopes that he will be re-elected, but if the feeling of the public generally remains as it is now, regardless of politics, Ringo will naver again be nominated.

DISGRACEFUL SQUABBLE. Muncie Doctors Carry Their Dis-

agreements Into the Public Schools. Special to the Indianapolis Journal. MUNCIE, Ind., Nov. 7 .- The petty fight between Muncie physicians, which originated with the discovery of the late smallpox epidemic, is still on, and has finally broken out in the public schools. Innocent people are being made to suffer, and good citizens in general are indignant. The trouble began when the first cases of smallpox were discovered by Dr. Jackson, city health officer. The disease had been treated by others for several weeks as chickenpox. Some of the physicians alleged that Dr. field this afternoon. The game resulted Jackson was too young a man and of not enough experience to cope with the disease. His work, as well as that of the State board, has been continuously and severely criticised by some of the doctors. The public schools were opened yesterday, and all pupils were compelled to have certificates of vaccination. It had been determined that some of Muncie's doctors, without regard to the medical board, had issued certificates without their being vaccinated. These physicians were spotted, as it was expected they would issue certificates to children. The teachers in each school were told to examine the arm of each child holding a pertificate issued by these men, and, as a result, several children were sent home. Drs. Puckett, Bunch, Bohannan, Ross, Jones and others are now very angry, and threaten to bring suit for damages, as Billy Murphy, of Australia, took place last they claim it was a discrimination against them. Physicians were placed at each school gilding to examine each child. To-day D. Jackson announced that all children would hereafter be admitted, but if any were found with a certificate and not vaccinated the physician will be prosecuted.

Muncie Presbytery Closes. Special to the Indianapolis Journal. PERU, Ind., Nov. 7.- The Muncie Presbytery, which has been in special session for the past two days in the First Presbyterian Church of this city, closed its labors to-day at noon. The meeting was an important one, in the fact that action was taken on the charges which had been preferred against the Rev. Stewart Pain, of

consuming nearly two days. The verdict of the presbytery is that he be suspended indefinitely, or until sufficient evidence be given of reformation and willingness to conform to the precepts of the church. Rev. Pain has promised to obey the summons of the body. Action was also taken by the presbytery on the recent appointment of the Rev. S. C. Dickey to the position of superintendent of State missions, and his pastorate with the church in this city dissolved. He will enter at once on the performance of his new duties, with Indianapolis as his headquarters. His successor has not yet been chosen. Rev. Dickey leaves this city with the reputation of one of its ablest ministers.
